RHODODENDRON MAXIMUM

THE WILDAcre NURSERIES

Dallas L. Clark, Owner

COLLETTSVILLE, NORTH CAROLINA

REMARKS

The following are my wholesale prices in carload lots, F. O. B. shipping point.

Quotations are for strictly first class stock collected from areas that have recently been burned over, and all plants would have new wood and good, clean foliage. Best of care is always taken in digging and handling all plants, but we assume no responsibility after they leave our hands.

All quotations are for immediate acceptance, subject to stock being sold and without liability to me should injury befall stock from frost, fire, hail or other causes beyond my control.

Certificate of Inspection attached to all shipments.

FALL SHIPPING seasons begin September 1st and usually extend into December, according to weather conditions.

SPRING SHIPMENTS are forwarded and subject to conditions beyond our control, February 1st to May 15th.

TERMS

Cash or satisfactory references are required from unknown parties. Boxing and packing at cost. We are always ready to correct our errors and mistakes, but complaints, if any, MUST be made within 3 days after receipt of stock or they cannot be entertained. We assume no responsibility, whatsoever, after delivering the stock for transportation.

ORDER EARLY, PLEASE

HARDY NATIVE EVERGREEN TREES AND SHRUBS

RHODODENDRON CAROLINIANUM (Carolina Rhododendron) The earliest of the Rhododendrons, blooming freely when small. The blossoms are a clear pink color.

3 to 4 ft., B&B.....	\$1.00 each

3 to 4 ft., "	1.35 "
4 to 5 ft., "	2.00 "

RHODODENDRON MAXIMUM (Great Laurel) This grows naturally further north of all the Rhododendrons and makes the largest bush. Its flowers are white tinged with pink, opening late in June. Our Specialty.

2 to 3 ft., B&B.....	\$.45 each
3 to 4 ft., "65 "
4 to 5 ft., "	1.00 "
5 to 6 ft., "	1.60 "
6 to 7 ft., "	2.50 "
Cut back clumps for growing on.....	.10 "

RHODODENDRON MAXIMUM. Have approximately 500 of heavy, transplanted nursery grown plants; spread of tops about equal in height; extra dark foliage; fine.

1 to 2 ft., B&B.....	\$.60 each
----------------------	-------------

KALMIA LATIFOLIA (Mountain-laurel) Probably this is considered our most beautiful broadleaved evergreen. Glorious pink or rose colored flowers.

2 to 3 ft., B&B.....	\$.45 each
3 to 4 ft., "65 "
4 to 5 ft., "	1.00 "
Cut back clumps for growing on.....	.10 "

KALMIA LATIFOLIA. Have several hundred standard grade, transplanted, nursery grown Kalmia, which we are offering at exceptionally close prices.

1 to 2 ft., B&B.....\$.45 each

LEUCOTHOE CATESBAEI (Lily-of-the-valley Shrub) This shrub has beautiful reddish green leaves and drooping strings of white bells, blossoming in May.

3 to 4 ft., B&B.....\$.75 each

4 to 5 ft., " 1.00 "

Cut back clumps for growing on..... .12 "

ILEX OPACA (American Holly) A handsome, broadleaved evergreen. Easy of culture and adapts itself to varied soil conditions.

3 to 4 ft., B&B.....\$2.00 each

4 to 6 ft., " 3.00 "

PIERIS FLORIBUNDA (Drooping Andromeda) A shrub growing in a compact bush with dense evergreen foliage and three-parted racemes of white bells. Blossoms profusely in early Spring.

2 to 3 ft., B&B.....\$.75 each

3 to 4 ft., "95 each

ILEX GLABRA (Inkberry) This small, attractive evergreen shrub for bogs and rock gardens cannot be surpassed. We believe it is entitled to more consideration than it has been receiving.

2 to 3 ft., B&B.....\$.95 each

3 to 4 ft., " 1.35 "

BOXWOOD

BUXUS SEMPERVIRENS (Common Box) We offer a nice assortment of this Box in large and small sizes.

HARDY NATIVE WILD FLOWERS

We are offering exceptionally close prices on these plants, and will be pleased to go further into this subject at any time when called upon.

	Per 100	Per 1000
ARISAEMA TRIPHYLLUM (Jack-in-the-Pulpit) Jack is a most agreeable inhabitant of the wild garden, making friends with everyone especially the children. He will grow 12 to 15 inches tall in moist shade.....	\$	\$35
ASCLEPIAS TUBEROSA (Butterflyweed) This may be the most gorgeous of all wild flowers, and the orange flowers growing on the dry, sunny banks in July always attract much attention. It grows to about 2 ft. in height		50
CIMICIFUGA RACEMOSA (Black Cohosh) The picturesque spikes of this Cimicifuga blossom in August, in moist, partial shade. Its height is from four to six feet		50
CYPRIPEDIUM ACAULE (Pink Moccasin Flower) The pink Moccasin Flower supplies color for the pine woods of New England. This largest flowered Ladyslipper also grows in hardwood shade and sometimes in open sun if ground is acid. Blossoms in May.....	8	65
EPIGAEA REPENS (Trailing-arbutus) This is the well-known Mayflower. It must have acid soil and partial shade. The plants are shipped with a ball of earth	10	75
GALAX APHYLLIA (Galax) This is a wild flower from the Southern Mountains, thrives in the north. Spikes of white flowers in June. Evergreen leaves.....	8	65
GENTIANA ANDREWSII (Blind Gentian) The blossoms of the Blind Gentian are the most intense blue of all wild flowers and is easily grown in moist shades or sun. It is two feet tall and it blossoms freely in September	8	65
HABENARIA CILIARIS (Yellow Fringed-orchid) In August, the orange-yellow flowers rise on one to two foot flower stalks. Very scarce. Only a limited quantity. Rock Garden subject.....	25	

	Per 100	Per 1000
GILLENIA STIPULATA (Indian Physic) Height two to four feet. Handsome cut foliage; flowers pure white or rose tinted in June. Splendid for massing among shrubbery. Extra-strong plants.....	\$ 8	\$50
HEUCHERA AMERICANA (American Alumroot) One to two feet in height. Large-lobed leaves, beautifully mottled bronze in early winter. Flowers greenish white in June. Splendid rock garden subject. Strong plants	8	50
IRIS CRISTATA (Crested Iris) Sky blue flower on four inch stems. This is a fine plant for rock gardens and it grows in either sun or shade.....	8	50
IRIS CRISTATA ALBA (White Crested Iris) One of our rarest native plants.....	50	
LILIUM PHILADELPHICUM (Wood Lily) The brilliant splashes of red among the Sweet Fern and Blueberry bushes is accounted for by the Wood Lily. Attains a height of about two feet.....	10.50	55
MENTHA PEPERITA (Peppermint) We believe it is quite unnecessary to describe this plant. A Rock Garden subject.....	8	40
MENTHA SPICATA (Spearment) Attractive waterside plant. The leaves are very useful for many purposes	8	40
MYOSOTIS SCORPIOIDES (True Forget-me-not) Of all the plants for the brookside planting, none is more daintily attractive than the True Forget-me-not. It blossoms throughout the summer.....	8	50
PHLOX REPTANS. This creeping Phlox should be more generally used, for it is one of the best low growing plants for the dry woods. Large pink flowers cover the plant in June.....	8	50
PHYTOLACCA AMERICANA (Pokeweed) This plant has white flowers in July and dark red berries in September. It prefers to grow on the open hillsides.....	8	50
SANGUINARIA CANADENSIS (Bloodroot) One of our finest, pure white early spring flowers, growing in sun or shade and about eight inches tall.....	8	50

	Per 100	Per 1000
